

Educational Programming Opportunity at Vancouver Museum

CONTEMPORARY CRAFT IN BC: EXCELLENCE WITHIN DIVERSITY.

Call to Artists and CABC members to make presentations at the Vancouver Museum during the period of the exhibition. CONTEMPORARY CRAFT IN BC: EXCELLENCE WITHIN DIVERSITY

This is an opportunity for artists who already have work selected for the exhibition to participate further by presenting information about their work such as: processes, materials, influences, philosophy, etc.

Similarly, the opportunity exists for CABC members who are craft makers to participate and further add to the dynamic of the exhibition.

Visitors to the exhibition will have the chance to discuss what they see with the artist responsible while the artist will be able to share their skill, knowledge and enthusiasm for their craft.

I have included below the guidelines that apply to demonstrations and presentations at the Vancouver Museum together with dates that are available and contact information.

1. Demos take place within the exhibit space or just outside rather than in separate workshop rooms as they found this attracts the public more.
2. Demos limited to anything that doesn't require heat and water.
3. Demos would be structured more like a show and tell rather than workshop or full scale demo.
4. Demos are free to the public going into the museum.
5. The Museum can not pay a honorarium or fee for these demos. However, they will put information, about them and the artists involved, in their publicity materials if the necessary arrangements are made by January 25.
6. Museum staff will be responsible for the coordination and liaison with the artists along with set up and strike.

Saturdays February 9 and 23, and March 8,
Friday to Sunday on Easter Weekend March 21, 22,, 23.

Times available" 12.20 - 2.30 and 2.30 - 4.30.

**Should you have questions or wish to participate please contact: Sid Samphire (CABC coordinator) potsam@telus.net 604 535-2144
AND Susan Smith (Programme Director, Vancouver Museum) ssmith@vanmuseum.bc.ca 604 730-5310**
